

ITEM# 138

Health Basics

- Low-glycemic formula for sustained energy*
- No artificial flavors, sweeteners, preservatives, or colors
- Contains L-Carnitine, which is important for cellular energy production*

Rev3™ Difference

- The low-glycemic formula and naturally derived energy-producing ingredients provide a smart alternative to typical crash-and-burn energy drinks

Did You Know?

- Rev3 Energy™ contains a proprietary energy complex with ingredients that are necessary for the healthy performance of cell membranes*

USANA DIFFERENCE

- Effective • Safe • Science-based • Pharmaceutical Quality

Cleaner. Smarter. Stronger. Rev3 Energy™ is all the power of an energy drink—refined. With an advanced formula developed by USANA's nutrition experts, Rev3 is a superior alternative to crash-and-burn energy drinks.

WHAT MAKES IT WORK?

Rev3 has unique components that separate it from other energy drinks: Rev3 contains L-Carnitine, an ingredient that has an important function in energy production. L-Carnitine helps shuttle fatty acids (fats) into the mitochondria where they can be turned into energy. It also helps to transport the toxic byproducts of energy combustion out of the mitochondria to prevent accumulation.

Rev3 also contains CoQ10. CoQ10 is involved in the production of 95 percent of the energy required by the body.

A REVOLUTION IN ENERGY DRINKS

Rev3 is also low glycemic and formulated for a sustained energy. With a high glycemic load, typical energy drinks spike your blood sugar levels, giving you a quick feeling of energy but soon leading to a crash that leaves you feeling drained. Rev3 has a total glycemic load that is three to four times lower than traditional energy drinks. This means that Rev3 does not lead to a debilitating sugar crash but rather leaves you feeling a sustained level of energy throughout the day.*

PROPRIETARY ENERGY COMPLEX

Rev3 was developed with a complete and proprietary energy complex that includes L-Carnitine, malic acid, citric acid, Korean ginseng, and rhodiola. These

ingredients are necessary for normal functioning of the Krebs energy cycle (citric acid cycle) and electron transport systems.*

PROPRIETARY PHYTOCHEMICAL BLEND

The unique phytochemical blend of Rev3 includes 61 milligrams of additional all-natural ingredients. This includes pomegranate, acerola, grape-seed extract, and USANA's patented Olivol® olive-fruit extract. Olivol provides highly bioavailable phenolic antioxidants that have been shown to protect low-density lipoproteins (LDL) from oxidation.*^{1,2}

WHY REV3 ENERGY™?

Rev3 has a crisp, all-natural taste from natural ingredients. Rev3 is unique among most common energy drinks, because it has no artificial flavors, no artificial sweeteners, no artificial preservatives, and no artificial colors. It contains naturally derived caffeine from a blend of teas for improved mental alertness and stamina. Rev3 also includes additional vitamins, minerals, and antioxidants that support energy metabolism at the cellular level.*
